PAYSON, Utah, Dec. 26.-The good people of this retired burg, commenced the holiday week by holding an anthe holiday week by holding an anniversary meeting on December 23 in commemoration of the Prophet Joseph Smith under the auspices of the Payson Relief society at the Tabernacle. Two sessions were held, afternoon and evening. Speechas were made by those who lived and associated with the prophet in his day. The programmes were interspersed with songs, music and recitations to the enjoyment of crowded houses.

The evening of the 24th was enjoyed in two overcrowded dances. The Hanerback brothers furnished delightful music at the Opera house, and

ful music at the Opera house, and Done brothers at the city hall.

The Sunday schools were all delighting the youngsters of more tender years with presents from "Santa Ciaus."

TRUE FORM OF THE MOON.

You were doubtless taught, as was the writer, that the moon is globular-shaped; or, in other words, that its form is similar to that of the earth According to the teachings of advanced modern astronomy, this is all a mistake. It is believed nowadays that the moon is a perfect ellipse, its figure being nearly exactly one-third longer than it is broad. This elliptical the erion is always presented to our view.
This is caused by the moon revolving once on her axis in exactly the same beriod of time that she revolves around the earth. Her elongated the same was probably caused by the attraction of the earth when both platiets were young and soft.
